

APICS Certified in Logistics, Transportation and Distribution (CLTD) Learning System

This product is based on the APICS CLTD *Exam Content Manual (ECM)* developed by APICS. Although the text is based on the body of knowledge tested by the APICS CLTD exam, program developers do not have access to the exam questions. Therefore, reading the text does not guarantee a passing score.

The references in this manual have been selected solely on the basis of their educational value to the APICS CLTD certification program and on the content of the material. APICS does not endorse any services or other materials that may be offered or recommended by the authors or publishers of books and publications listed in this module.

Every effort has been made to ensure that all information is current and correct. However, laws and regulations are constantly changing. Therefore, this product is distributed with the understanding that the publisher and authors are not offering legal or professional services.
